Except as permitted by the Agreement, You may not reproduce any part of this document, store this document in a retrieval system, or transmit this document, in any form or by any means, electronic, mechanical, recording, or otherwise, without the prior written consent of Cybersource.

## Restricted Rights Legends

**For Government or defense agencies:** Use, duplication, or disclosure by the Government or defense agencies is subject to restrictions as set forth in the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 and in similar clauses in the FAR and NASA FAR Supplement.

**For civilian agencies:** Use, reproduction, or disclosure is subject to restrictions set forth in subparagraphs (a) through (d) of the Commercial Computer Software Restricted Rights clause at 52.227-19 and the limitations set forth in Cybersource Corporation's standard commercial agreement for this software. Unpublished rights reserved under the copyright laws of the United States.

## Trademarks

Authorize.Net, eCheck.Net, and The Power of Payment are registered trademarks of Cybersource Corporation. Cybersource, Cybersource Payment Manager, Cybersource Risk Manager, Cybersource Decision Manager, and Cybersource Connect are trademarks and/or service marks of Cybersource Corporation. Visa, Visa International, Cybersource, the Visa logo, and the Cybersource logo are the registered trademarks of Visa International in the United States and other countries. Bank America and the Bank America logo are the registered trademarks of Bank of America in the United States and other countries. All other trademarks, service marks, registered marks, or registered service marks are the property of their respective owners.

## Confidentiality Notice

This document is furnished to you solely in your capacity as a client of Cybersource and as a participant in the Visa payments system.

By accepting this document, you acknowledge that the information contained herein (the "Information") is confidential and subject to the confidentiality restrictions contained in Visa's operating regulations and/or other confidentiality agreements, which limit your use of the Information. You agree to keep the Information confidential and not to use the Information for any purpose other than its intended purpose and in your capacity as a customer of Cybersource or as a participant in the Visa payments system. The Information may only be disseminated within your organization on a need-to-know basis to enable your participation in the Visa payments system. Please be advised that the Information may constitute material non-public information under U.S. federal securities laws and that purchasing or selling securities of Visa Inc. while being aware of material non-public information would constitute a violation of applicable U.S. federal securities laws.

**Release:** 2/12/2021

**Version:** 2

# General Information

These release notes cover all releases to the production server from February 7, 2021, to February 12, 2021.

# Announcements

## New Reply Field for Secure Acceptance

Cybersource added a new reply field, **payment\_account\_reference**, to Secure Acceptance in both the Hosted Checkout and Checkout API integrations.

To avoid impact:

- Parse the reply data according to the names of the fields instead of their order in the reply. For more information on parsing reply fields, see the *Secure Acceptance Checkout API Integration Guide* or *Secure Acceptance Hosted Checkout Integration Guide* for your scripting language.
- The signature that you generate must be the same value that is included in the signature response field.
- Your error handler should use the decision field to determine the transaction result if it receives a reason code that it does not recognize.
- If your implementation expects static response fields, build the signature string dynamically instead, as specified in the *Secure Acceptance Checkout API Integration Guide* or *Secure Acceptance Hosted Checkout Integration Guide* and the sample code.

The Secure Acceptance integration guides and the sample code documentation are at this location:

<https://www.cybersource.com/en-us/support/technical-documentation/apis-and-integration.html#SecureAcceptance>

Contact your customer support, technical account manager, or account manager for more details.

## Cybersource through VisaNet Rebranding

The Cybersource through VisaNet product is now called *Visa Platform Connect*.

# Features Introduced This Week

## **Support for authorization reversal is added for staged digital wallets**

[RM-8833]

## **SIX gateway CVV Enhancements**

[RM-8833] The SIX gateway now has relaxed CVV validation checks that do not depend on the value of the **card\_cvindicator** API field. In addition, a CVV response code is now included in the authorization response for SIX gateway merchants.

## **Mastercard Trace IDs are now supported for Omnipay gateways**

[RM-8967]

## **Decision Manager Daily Report Enhancements**

[RM-8059] The Decision Manager Daily Report (DMDR) now supports Exemption Action and Order Modification fields. In addition, portfolio users can now subscribe and download DMDRs.

## **The audit entries for Merchant Velocity now support Italian**

[RM-8622]

## **Merchants can now create rules with Motif information codes**

[RM-9055]

## **EcoBank Ghana Currency Update**

[RM-9057] EcoBank Ghana now supports the Central African CAF franc (XAF currency code) and other currencies.

## **The Korea Cyber Payment gateway is now supported**

[RM-8257]

## Issues Fixed This Week

- [RM-8833] Mastercard network tokens now support the **eci\_internet** field and now use the **ucaf\_indicator** field validly. In addition, the correct staged digital wallet type is used in authorization/bill bundles.
- [RM-8833] For the SIX gateway, only numerical values are now permitted for CVV validation.
- [RM-8990] MOTO transactions on the American Express gateway are now identified correctly as MOTO transactions and not standing authorizations when subsequent authorization credentials are sent with the transaction.
- [RM-8622] An issue with Merchant Velocity timeouts is resolved.
- [RM-9010] When customers create *ad hoc* reports in the Pacific time zone from Midnight to Midnight, the monthly invoice summary report now matches the *ad hoc* report.
